RE: "Specialty Metals" Certification

To Whom It May Concern:

SPS Technologies, Santa Ana, certifies that within the calendar year 2009 more than 50% of our purchases of "specialty metals" as defined by 10 USC 2533b are or will be made from domestically melted "specialty metal". Therefore, we consider the commercial fasteners produced by our company to be in compliance with 10 USC 2533b(h)(3).

Applicable supporting documentation will be made available to appropriate parties upon request with 30 days notice.

Sincerely,

A handwritten signature in black ink that reads 'Paul A. Gardner'. The signature is written in a cursive style with a large initial 'P'.
